After the Elektrochemisches Kombinat at Bitterfeld (EKB) was returned to the Germans, production plans still continued to be made by the SCC. The plans called for an increase in the current production of aluminum, aluminum and Elektron (magnesium or magnesium alloy). Following is the distribution of EKB production in percentages:

- | | |
|--|-----|
| a. Russian requirements | 45% |
| b. East German industrial requirements | 25% |
| c. East German requirements for special industries | 30% |
